Dear Mr. Smith:

Enclosed are the annual reports for 1980, including revised surface maps for the Velvet and Probe Mines.

As you can see no mine site reclamation has been done during the year since all mines are either operating or awaiting reopening. Each mining operation is preceeding in accordance with the originally submitted and amended mining and reclamation plans.

Reclamation work to date has been confined to drill site grading and reseeding.

If you have any questions please call.

Respectfully,
